all information*

Dear colleagues, dear friends,

The GERSAM meetings initiated by Gregor Antoniadis and Mario Siqueira in 2015 have been a true success story with following events in Rio de Janeiro and Berlin. Pandemics kept us from coming together earlier, that is why we would like to “get back on track” and continue with this fantastic experience.

As a general topic we want to discuss with you the **Boundaries and New Horizons** of today's Peripheral Nerve Surgery.

In the meantime, the friendship and cooperation seeded by GERSAM grew to a next level, and FLANC and EANS teamed up to organize the educational **“Theoretical and Practical and Course on Peripheral Nerves and Brachial Plexus”** formerly held under the auspices of WFNS. **That includes 2 days of lecture and discussion and 1 day of cadaver dissections.** In 2023 in Rio de Janeiro, Fernando Guedes and his team set up an incredible meeting. For this second edition, our friends from North America joined the team. Thus, the idea of combining both the expert meeting of GERSAM and the educational course appeared only naturally.

To us it seems to make a lot of sense to have both meetings within the same week, since a vast majority of the speakers would be part of both. In this way, nobody needs to travel the ocean twice. And still, we could maintain the spirit of both meetings by having them on separate days.

All the best,

CHRISTIAN HEINEN, GREGOR ANTONIADIS, MARIO SIQUEIRA,
FERNANDO GUEDES, MARIANO SOCOLOVSKY, LUKAS RASULIC,
MARK MAHAN

INDUSTRY PARTNERS

PERIPHERAL NERVES AND BRACHIAL PLEXUS

2nd Joint Theoretical and Practical Course of FLANC/EANS/AANS
Hamburg, Germany

» The 2nd joint EANS FLANC AANS theoretical and practical course on peripheral nerves and brachial plexus will be immersion into the fascinating field of peripheral nerves. Everything from clinical examination, diagnostics and treatment of peripheral nerve compression, trauma, tumor and inflammation will be presented by high-ranking international faculty during the first two days. On day three, for a limited number of participants there will be the unique possibility go in cadaver lab and dissect with the guidance of the same faculty. An occasion not to be missed!

Reservation - Deadline: January 17th 2025

Participation fee:

Theoretical course: 500 €
Theoretical course and active participation in cadaver dissection: 1000 €
Theoretical course and observing participation in cadaver dissection: 750 €

Theoretical Course | Meeting Place:

Radisson Blue
Congress Platz 2 | 20355 Hamburg
www.radissonhotels.com/en-us/hotels/radisson-blu-hamburg

Practical Course | Meeting Place:
